<ul style="list-style-type: none"> I am developing websites for free in my settlement (for evidence: can I put here portfolio if it would be my application? Or rather I have to name them(sites)?) "Pfandautomat" project to imply into Ukraine a new eco-way of recycling bottles(https://retrash.tk/) "ESMU" website 	<ul style="list-style-type: none"> 2nd place, Olympiad in Physics, 2020-2021, Oblast' 2nd place, physics tournament, 2020-2021, Oblast' 2nd individual place, physics tournament, 2020-2021, Oblast' 3rd place, Olympiad in IT, 2020-2021, Oblast' 3rd place, research work "MAN" theoretical physics section, 2018-2019, Oblast' 3rd place, physics tournament, 2018-2019, Oblast' 3rd place, math tournament, 2018-2019, Oblast' I am currently a graduate with a silver medal in my school (for high results in studying) and GPA: 11.1/12 	<ul style="list-style-type: none"> Alumni of Lokachi's music school with regard, guitar, 2014 - 2020 3rd place, Folk String Instrument Competition (Guitar), Oblast' 2018 1st place, International Children's Festival Art Competition "Sunflower" (Guitar), Kyiv, 2019 I have already published some of my video-clips on YouTube 1st place, 3rd regional Festival Competition "Instrumental Opening" (Guitar), Lviv, 2021 1st place, International Festival Competition "Star Parade" (Guitar), Lviv, 2020

Anton Melnychuk channels his passion for Computer Science into development of diverse projects: starting from clothes web-store in his settlement to All-Ukrainian "ESMU" project brand website, hoping that it would promote their further growth. Through his volunteering he could help settlers to develop their businesses like a furniture factory in order to increase the competitiveness of his village. Throughout the last two years he was encouraged to develop himself in that field to create more global-matter projects with other technologies. Today he is working on the "Pfandautomat" project with a team to implement into Ukraine a new eco-way of recycling bottles. Therefore, in college he would like to research and work on different start-ups that could struggle with global problems of nowadays. In the academic field, he is a winner of various IT, Math and Physics regional Olympiads and Tournaments, which often motivated and supported him in his future works in IT; he also worked on research in theoretical physics and is a winner of regional competition of "JAS". Furthermore, he is a nationally-ranked guitarist: Anton won several national and regional competitions and festivals. He wants to show the world that percussive acoustic guitar should be the next big thing! He finished his music and secondary school with an honor for high scores in education.
